M. of that day. The transfer books of the company will be closed for ten days (0 days) prior to said election. By order of the Board of I frectors.

CHARLES PLACE, Secretary.

THE FEOPLE OF THE UNITED STATES ARE IN Iterested in the establishment of an industrial palace in the city of New York which shall be larger and more magnificent than any of its prodecessors.

The Legislature of New York has granted a charter incorporating the Industrial Exhibition Company. This corporation proposes to erect a suitable building to be used as a perpetual palace of industry.

It is intended to have the bailding ready in time to receive the goods which will be catholised in the Centennial at Philadelphia. As the great processor of the Centennial at Philadelphia will be catholised in the Centennial at Philadelphia. The propose of the Wird's Fair at Philadelphia will be usualfied in incurring a greater expense. Knowing that on the close of that enterprise they can remove their wares tron Philadelphia to New York and again place them on exhibition, and also sell by sample. The industrial palace of New York is acestined to become the home of manufacturers and inventors. The people of this city are especially interested in this enterprise, for the reason that it will cause thousands of strangers from all portions of the world to visit New York, not once, but annually, for business and for pleasure, that, but for the palace of industry, would remain at home or visit other cities. This influx of strangers would leave annually millions of dollars which would be distributed among the citizens of New York is

of New York is

RAPID TRANSIT.

Nothing will give capital more confidence that a rapid transit railway will pay than the building of a crystal palace. The strangers desiring to visit such an institution would alone make sufficient business to justify the building of a railway from the Bartery to the Barterm River. Rival cities to New York are making earnest and winorous attempts to carry away the trade posed.

The Industrial Exhibition Company, for the purpose of raising the necessary means to carry out its plan, have made a bonded debt, and to enable persons of small means to aid in this great enterprise has made its bonds at \$30 each, and half bonds at \$30 each, and half bonds at \$30 each, Circulars sent tree. All communications should be addressed.

THE WINDSOR WAGON,
by
Browster, of Twenty-fitth street.

Attention is invited to our new and improved method of handing side bar Wagons, pronounced by the owners of the finest road stock as "the fastest wagon," for speeding yet produced. The one man leather to Wagon of this description, weighing 149 lbs., combines, in an unquisited degree, the essential elements of strength and stiffness. Another variety of this wagon, for pleasure driving, combines all the ease of the elliptic spring, with greater steadiness and absence of the diagreeable swaying motion, while it is hing as low as the ordinary half spring wagon.

J. B. BREWSTER & CO.

old house of Brewster). 145 East Twenty dith st.
